

BLANKETS OF COMPASSION

FLEECE TIE BABY BLANKETS

- * Using two ½ yard pieces of fleece (typically a solid and a print), lay wrong sides together*
- * Trim off selvage edge and match up edges of both pieces of fabric (trim other edges if necessary)*
- * With fabrics together, cut a 3" X 3" square out of each corner (this will allow the corners to lie nicely when tied)*
- * Cut 3" long fringes at 1" intervals on all four sides (neither of these measurements need to be exact from one cut to the next but try keeping them approximately the same size). The longer the fringes, the smaller the finished blanket*
- * Using one fringe from the top fleece and one from the bottom, tie a tight double knot. Continue tying all four sides. Leave one corner (about 3 fringes deep on 2 sides) untied to allow me to stitch the blanket label on each blanket.*
- * Please call if you'd like me to pick up your blankets or you can make arrangements to drop them off.*

God Bless You,

Debra
