Community Groups

A Community Group is a small group of people who meet together regularly to make new friends, study God's Word and fellowship in a home setting. The average groups are eight to twelve people in size, and meet throughout the week to study a variety of topics. Groups are comprised of people just like yourself: co-workers, friends, relatives and neighbors. Most groups are structured so anyone can attend. Many groups dig deeper into the Sunday message using the questions provided on the sermon notes.

When you have located a group you would like to know more about or join, simply call the Leader. It's that easy! There is no obligation and you may visit more than one group if you like, to find a good fit for you.

Many groups have formed valuable, long-term relationships by becoming a real "family," and continue on to do various studies and activities together.
